Books Reviewed

(Volume 14)

Assignment Methods in Combinatorial Data Analysis, by Lawrence J. Hubert, 1:106

Discovering Causal Structure: Artificial Intelligence, Philosophy of Science, and Statistical Modeling, by Clark Glymour, Richard Scheines, Peter Spirtes, & Kevin Kelly, 2:205

Drawing Inferences from Self-Selected Samples, edited by H. Wainer, 2:201

Latent Variable Models and Factor Analysis, by David J. Bartholomew, 1:114

Multiple Comparison Procedures, by Y. Hochberg & A. C. Tamhane, 1:103

Multivariate Analysis (Techniques for Educational and Psychological Research), by Maurice M. Tatsouka, with contributions of Paul R. Lohnes, 1:110

Test Validity, edited by Howard Wainer & Henry I. Braun, 3:291

Key Word Index

(Volume 14)

Canonical correlation 3:211
Categorical data 1:47
Causal inference 2:121
Chi-square test 1:47
Classical test theory 3:279
Collateral information 4:335
Contingency table 1:47
Continuity correction 1:47
Correlation and causation 2:146

Dropouts from treatment 2:146

Edgeworth series 3:245
Empirical Bayes 1:29
Exact probabilities 3:245

General linear model 4:351

Heteroscedasticity 3:269
Hypothesis testing 4:351

Independent binomial distributions 1:1
Interactions 3:255
Internal correlation coefficient 3:211
Item banking 3:279
Item response theory 4:335

Jame's method 3:269

Latent variables 4:335
Lexis model 1:1
Linear programming 3:279

Maximum likelihood estimates for proportions 1:1
Mediated models 2:146
Missing data 2:121
Missing data 2:146
Missing information principle 4:335
Mixture modeling 2:121
Multiple imputation 4:303
Multivariate general linear model 1:21

Nonignorable nonresponse 2:121
Nonparametric 4:351

Pearson Type II curves 3:245
Plausible values 4:303
Power 4:373

Rank tests 3:255
Ranking and selection 1:29
Ridge regression 3:211

Sample surveys 1:81
Sample surveys 4:303
Scholastic Aptitude Test 2:121
Selection bias 2:146
Selection modeling 2:121
Self-selected samples 2:146
Self-selection 2:121
Statistical adjustments 2:121

Taylor's series approximation 1:81
Test construction 3:279
2×2 tables 1:47
Type I error rate 4:373

Variance equality 4:373
Variance estimation 1:81
Variance estimation 4:303

Welch's procedure 3:269

Yate's correction 1:47
